BOOK ONE The Master Key System is a personal development book by Charles F. Haanel (1866-1949) that was originally published as a 24-week correspondence course in 1912, and then in book form in 1916. The ideas it describes and explains come mostly from New Thought philosophy. It was one of the main sources of inspiration for Rhonda Byrne's film and book *The Secret*. The book describes many New Thought beliefs such as the law of attraction, creative visualization and man's unity with God, and teaches the importance of truth, harmonious thinking and the ability to concentrate. Each of the 24 chapters contains an introduction, followed by a sequentially numbered section which includes an exercise towards the end, followed by a section with questions and answers. At the beginning of the book is a Psychological Chart which readers are encouraged to complete, providing a self-evaluation of their creative power, time efficiency, health, mental ability and capacity to concentrate. The book ends with a glossary and general question-and-answers section. Every chapter includes a quotation from people such as Jonathan Edwards, Lillian Whiting and Amos Bronson Alcott. BOOK TWO Mental Chemistry. 1922. Chemistry is the science which treats of the intra-atomic or the intra-molecular changes which material things undergo under various influences. Mental is defined as "of or appertaining to the mind, including intellect, feeling, and will, or the entire rational nature." Science is knowledge gained and verified by exact observation and correct thinking.
