MICAI 2009: Advances in Artificial Intelligence: 8th Mexican International Conference on Artificial Intelligence, Guanajuato, México, November 9-13, ... (Lecture Notes in Computer Science)

The Mexican International Conference on Artificial Intelligence (MICAI), a yearly international conference organized by the Mexican Society for Artificial Intelligence (SMIA), is a major international AI forum and the main event in the academic life of the country's growing AI community. The proceedings of the previous MICAI events were published by Springer in its Lecture Notes in Artificial Intelligence (LNAI) series, vol. 1793, 2313, 2972, 3787, 4293, 4827, and 5317. Since its foundation the conference has been growing in popularity and improving quality. This volume contains the papers presented at the oral sessions of the 8th Mexican International Conference on Artificial Intelligence, MICAI 2009, held November 9-13, 2009, in Guanajuato, México. The conference received for evaluation 215 submissions by 646 authors from 21 countries. This volume contains revised versions of 63 articles, which after thorough and careful revision were lected by the international Program Committee. Thus the acceptance rate was 29.3% This book is structured into 18 sections, 17 of which correspond to a conference track and are representative of the main current areas of interest for the AI community; the remaining section comprises invited papers. The conference featured excellent keynote lectures by leading AI experts: Patricia Melin, Instituto Tecnológico de Tijuana, México Dieter Hutter, DFKI GmbH, Germany Josef Kittler, Surrey University, UK Ramón López de Mantaras, IIIA-CSIC, Spain José Luis Marroquín, CIMAT, México In addition to the oral technical sessions and keynote lectures, the conference program included tutorials, workshops, and a poster session, which were published in separate proceedings volumes.

Marcela Beach:

Reading a book being new life style in this yr; every people loves to learn a book. When you examine a book you can get a lot of benefit. When you read guides, you can improve your knowledge, because book has a lot of information onto it. The information that you will get depend on what kinds of book that you have read. In order to get information about your study, you can read education books, but if you want to entertain yourself you are able to a fiction books, such us novel, comics, as well as soon. The MICA I 2009: Advances in Artificial Intelligence: 8th Mexican International Conference on Artificial Intelligence, Guanajuato, México, November 9-13, ... (Lecture Notes in Computer Science) will give you a new experience in examining a book.

Dennis Green:

That reserve can make you to feel relax. This book MICA I 2009: Advances in Artificial Intelligence: 8th Mexican International Conference on Artificial Intelligence, Guanajuato, México, November 9-13, ... (Lecture Notes in Computer Science) was colourful and of course has pictures on the website. As we know that book MICA I 2009: Advances in Artificial Intelligence: 8th Mexican International Conference on Artificial Intelligence, Guanajuato, México, November 9-13, ... (Lecture Notes in Computer Science) has many kinds or type. Start from kids until young adults. For example Naruto or Investigation company Conan you can read and feel that you are the character on there. So , not at all of book are make you bored, any it can make you feel happy, fun and unwind. Try to choose the best book for you and try to like reading which.

Janice Hayes:

As a university student exactly feel bored in order to reading. If their teacher questioned them to go to the library as well as to make summary for some book, they are complained. Just very little students that has reading's soul or real their passion. They just do what the trainer want, like asked to the library. They go to right now there but nothing reading critically. Any students feel that looking at is not important, boring along with can't see colorful images on there. Yeah, it is to become complicated. Book is very important to suit

your needs. As we know that on this era, many ways to get whatever you want. Likewise word says, ways to reach Chinese's country. So , this MICAI 2009: Advances in Artificial Intelligence: 8th Mexican International Conference on Artificial Intelligence, Guanajuato, México, November 9-13, ... (Lecture Notes in Computer Science) can make you sense more interested to read.
