The primary skill needed by anyone who works in fashion is the ability to convey—to clients and the general public alike—images of the designs. The impression given to the viewer depends on whether the fashion design drawings are good. *Contemporary Fashion Illustration Techniques* thoroughly describes the basics of fashion illustration, and covers the latest trends such as vivid images, sprightly movement, and garment material texture. After all, fashion drawing is not simply about sketching a body and face; only when you accurately reproduce the garments and their colors can the designs truly come to life.
