Teaching Medical Professionalism (Cambridge Medicine)

Teaching Medical Professionalism (Cambridge Medicine)

Until recently professionalism was transmitted by respected role models, a method that depended heavily on the presence of a homogeneous society sharing values. This is no longer true, and medical schools and postgraduate training programs in the developed world are now actively teaching professionalism to students and trainees. In addition, licensing and certifying bodies are attempting to assess the professionalism of practising physicians on an ongoing basis. This is the only book available to provide guidance to those designing and implementing programs on teaching professionalism. It outlines the cognitive base of professionalism, provides a theoretical basis for teaching the subject, gives general principles for establishing programs at various levels (undergraduate, postgraduate, and continuing professional development), and documents the experience of institutions who are leaders in the field. Teaching aids that have been used successfully by contributors are included as an appendix.

From reader reviews:

John James:

Within other case, little persons like to read book Teaching Medical Professionalism (Cambridge Medicine). You can choose the best book if you like reading a book. As long as we know about how is important some sort of book Teaching Medical Professionalism (Cambridge Medicine). You can add expertise and of course you can around the world by way of a book. Absolutely right, simply because from book you can understand everything! From your country until finally foreign or abroad you may be known. About simple factor until wonderful thing you may know that. In this era, we can open a book or even searching by internet product. It is called e-book. You can use it when you feel bored to go to the library. Let's examine.

Daniel Buch:

What do you with regards to book? It is not important with you? Or just adding material when you want something to explain what yours problem? How about your free time? Or are you busy particular person? If you don't have spare time to try and do others business, it is make one feel bored faster. And you have extra time? What did you do? Everybody has many questions above. They have to answer that question mainly because just their can do this. It said that about guide. Book is familiar on every person. Yes, it is correct. Because start from on pre-school until university need this Teaching Medical Professionalism (Cambridge Medicine) to read.

Barbara Figueroa:

Are you kind of stressful person, only have 10 or even 15 minute in your day time to upgrading your mind skill or thinking skill even analytical thinking? Then you are receiving problem with the book in comparison with can satisfy your small amount of time to read it because all this time you only find e-book that need more time to be study. Teaching Medical Professionalism (Cambridge Medicine) can be your answer because it can be read by you actually who have those short free time problems.

Nancy Landry:

As a college student exactly feel bored to be able to reading. If their teacher requested them to go to the library as well as to make summary for some reserve, they are complained. Just tiny students that has reading's soul or real their leisure activity. They just do what the professor want, like asked to the library. They go to there but nothing reading significantly. Any students feel that looking at is not important, boring and can't see colorful photographs on there. Yeah, it is to become complicated. Book is very important in your case. As we know that on this time, many ways to get whatever we would like. Likewise word says, many ways to reach Chinese's country. So , this Teaching Medical Professionalism (Cambridge Medicine) can make you feel more interested to read.
