America's Providential Strategy is a comprehensive look at the Biblical best practices that over history have proven to transform nations for good. Dr. Mark Beliles, Ph.D., draws from his 30 years of studying Christian thought and actions in many nations. He has personally visited over 50 nations as well. His research led him to a startling find: Never has prayer, church growth and revival been enough to significantly transform a nation. He discovered that the missing element is found in Christ's Great Commission to "disciple the nations." When Christians have intentionally focused on not only training leaders for the church itself but also the nation, eventually the culture is changed. The Pilgrims who settled America and the Founding Fathers shared in this commitment and they founded the most transformed nation in history. But today most of it is lost. Business as usual for the modern church is not working. We must return to the historically-proven practices that transforms culture. Following the signs that Christ said would follow them, the book presents 3 major practices for 5 different areas of life. Rich with historical examples, and modern testimonies, the reader comes away not just inspired, but prepared to begin developing a long-term strategic plan for his own community. This book builds on a previous book by the author entitled America's Providential History.
