Camino Stories - Half a million steps: True inspirational stories from a pilgrimage in Spain Phil 'Philosofree' Cheney

True life stories about encounters on a pilgrimage walk by two authors, Phil and Manuela Cheney, along the Camino de Santiago in 2015. Inspirational stories about people from 15 countries across the world sharing their humanity! The people who met for the first time on the trail share their own journeys both before and during their adventure into northern Spain. This is not a travelogue, it is a travel encounter with real people and mysterious spiritual synchronicity. The style is light, the authors write with fun and honesty, and reading this book is in the words of one reader, "impossible to put down, I was intending to read a chapter or two, but I finished the whole book in one sitting." Those who have walked the 'Way' will resonate with this collection, and the photos that show the character of Spain and its peregrinos.
