**Global Women's Entrepreneurship Research: Diverse Settings, Questions and Approaches** Karen Hughes, Jennifer Jennings

*Global Women's Entrepreneurship Research* responds to recent calls from academic researchers and policy analysts alike to pay greater attention to the diversity and heterogeneity among women entrepreneurs.

Drawing together studies by 26 researchers affiliated with the DIANA International Research Network, this collection contributes to a richer and more robust understanding of the field.

Part I: 'Diverse Settings' introduces research set in a range of contexts, from those rarely examined to those representing more familiar terrains. Part II: 'Diverse Questions' explores new questions and reframes old questions in fresh, innovative ways. Part III: 'Diverse Approaches' features studies with distinct methodological approaches that reflect and extend the rigour and creativity of research in this field. Together, the research assembled in this volume significantly advances knowledge about women's entrepreneurship around the world.

While the book's primary audience is academic researchers and graduate students working in the areas of women's entrepreneurship, as well as entrepreneurship and family business more generally, it will also be of interest to scholars working in related research areas in the sociology of gender, work and organizations. Policy makers in government and non-government agencies as well as profit and not-for-profit organizations that provide services to, or conduct research on, women entrepreneurs will also benefit greatly from the insights provided in this unique volume.
