Lasers and Mirrors Science Stories & Experiments - 'Haunted House': Science Experiments John McChesney

Jack and Jill buy a Haunted House from Evil Mister Fred. His Great-Great-Great Grandfather's ghost is bothering them. Find out how Lasers and Mirrors can help Jack and Jill get rid of the ghost ... This book is one of a kind because it is based on a unique 'storytelling' methodology. It starts out with a 'cliff-hanger' story and requires your fantasy and knowledge to be completed. After the story there are a number of science experiments related to lasers and mirrors that will help you arrive at a conclusion to the story. And before you read the official ending of the story you need to finish the story in your own words using the knowledge that you gain by doing the science experiments. Sounds like fun? It is! This methodology has been used successfully by Rock-it Science Director, John McChesney to teach thousands of children and teachers. Online Science Classes that teach the content of this book are available at <http://www.ScienceCastle.com>.
