Praise for "HALLOWED GROUND"

"First off, this is the sequel to *HALLOWED BE THY NAME*, so read that first, then sit back and enjoy a well written ending to the story of good science gone bad.

From start to finish, the book keeps moving, no jet lag in between, well thought out and thought provoking. Should we really be messing around "improving" on nature? Was the "bad guy" really bad or just a victim of science pushing its limits too fast and too soon? The ending brought closure to the story, but did what a good

book does, it made me think what if..." -- DII (MI) AMAZON CUSTOMER
