Bladder Cancer: Current Diagnosis and Treatment (Current Clinical Urology)

Bladder Cancer: Current Diagnosis and Treatment (Current Clinical Urology)

Michael J. Droller, MD and a panel of experienced clinicians bring their strong background in clinical research to bear on the assessment and management of bladder cancer. Their comprehensive discussion summarizes the state-of-the-art in diagnosis and treatment, based on the latest understanding of bladder cancer's epidemiology, carcinogenesis, and tumor markers. Topics of particular interest include the role of genetics and molecular biology in evaluating bladder cancer clinically, the evaluation of the results of systemic treatment in advanced disease, the current status of tumor markers in bladder cancer, and the means for further study in their applicability. Insightful and evidenced-based, Bladder Cancer: Current Diagnosis and Treatment provides active clinicians and clinical investigators with not only a critical survey of the rapidly expanding research in the area, but also a state-of-the-art tutorial on today's optimal assessment and treatment of bladder cancer.
