Mies van der Rohe: Farnsworth House-Weekend House (Mies Van Der Rohe Archive) Werner Blaser

In 1945-50 Mies van der Rohe built the weekend house "Farnsworth House" in Plano, Illinois. Situated on the banks of a river, this house is constructed out of steel and glass and captivates with its clear proportions and reduction of the structure to its essence. The surrounding landscape provides a direct context.

Werner Blaser who worked together with Mies van der Rohe, presents a vivid picture of this house, enlivened by his personal knowledge. Together with comments on the architecture and technology, the book is complemented by the author's personal experiences of working with Mies van der Rohe and impressions from Peter Palumbo, a former inhabitant of Farnsworth House.
