Circumstances force fashion photographer, Cassie, to take an unlikely assignment in Egypt, where a diary mysteriously appears in her camera case. Inextricably drawn to its content, she begins to discover a surprising connection to the diary's writer. She doesn't know whether or not to believe it, but if the diary is true, it means not only that its writer is in mortal danger but also our entire Planet.

The discovery of the diary starts Cassie on a spiritual journey of adventure, intrigue and synchronicity, that takes her to many of the world's most ancient and enigmatic Sacred Stone Sites, and leads her to uncover the Planet's most primeval and powerful knowledge—including the surprising secret of her own past.

As her startling mission becomes clearer, Cassie finds herself and the diary's distant (or not-so-distant) writer tapping into a potent stream of knowledge and energy that has flowed through ancient civilizations – from Atlantis to Egypt and Israel, to South America and the South Pacific. It gradually becomes clear that understanding the secrets underlying our world – and these civilizations – is not just a stop on a tour bus, but rather it is essential in battling the forces of Darkness, Ignorance, Fear, and Separation that threaten humanity today. However, to find the diary's creator and save him, Cassie must overcome her own self-doubt, and come to terms with her gifts and passions as well as a life-altering destiny she never imagined existed.

All of the incomprehensible events in humanity's long history become clear – in an unexpected way. And as for our future, "The Keeper of the Diary" demonstrates how invisible threads of energy can tie the past, present, and possibly even our future, together in a most deliberate way. It offers both an important warning for mankind and a profound vision for our future.
