## **Six Days** Kelli Owen

Jenny Schultz wakes trapped in a pitch-black basement with no recollection of how she got there. With no outside stimuli, Jenny naturally turns inward and revisits her guilt-ridden past, desperate to figure out which wronged person would be angry enough, evil enough, to do this to her.

She must survive her own demons, and then time itself when she finds remnants of previous captives--a plate, a tooth, a bone. Scratched hashmarks in the stone walls around her, leave her to wonder what happens next.

What happens after six days?

- - - - -

This is the best debut novel that I have read in years. It truly is a brilliant work and I am proud that Thunderstorm [got] to be a part of it.

~ *Paul Goblirsch, Thunderstorm Books*

...serves to create a claustrophobic cocktail of unease and uncertainty. In today's world of omnipotent narrators and worn out horror clichés, it's refreshing in a very Chianti and fava beans sort of way. Owen has set the bar very high with her debut novel, a bar I have no doubt she will be able to surpass. Her blend of human observations, horror sensibilities, and gifted prose portend great things for her in the future.

~*The Word Zombie*
