The Society of Individuals (Collected Works Norbert Elias) Norbert Elias

A new edition of the Collected Works of Norbert Elias in English, *Society of Individuals* consists of three essays, the first written in 1939, the second dating from the 1940s, and the third a final reflection composed in 1987, three years before Elias's death. In each, Elias takes the Individual vs. Society discussion to a new level. He demonstrates that individualization is an inherent component of the personal socialization process and of inter-generational civilizing processes, exploding the myth of the 'We-less ego', and introducing important conceptual innovations, including 'I-identity' versus 'We-identity' and the 'We-I balance.'
