## Interpreting Governance, High Politics, and Public Policy: Essays commemorating Interpreting British Governance (Routledge Studies in Governance and Public Policy)

Interpreting Governance, High Politics, and Public Policy offers the latest perspectives on the interpretive approach to governance and public policy research.

This book commemorates more than a decade of governance research by Mark Bevir and R.A.W. Rhodes, the leading exponents of interpretive political science in the United Kingdom. It explains how insights from the interpretive perspective may be used to advance the study of governance, high politics, and public policy. Featuring contributions from major scholars in the field, both inside and outside the interpretivist fold, the authors critically reflect upon interpretivism and consider how aspects of the interpretive approach apply to their own research. The authors debate the significance of Bevir and Rhodes's work and develop future directions for interpretive governance research. The chapters link one of the most innovative contemporary perspectives in political science with the latest empirical studies.

Contributing towards setting the governance research agenda, *Interpreting Governance, High Politics and Public Policy* is an excellent resource for the study of interpretive policy analysis.
