Samira and the Skeletons

Camilla Kuhn

Samira and the Skeletons Camilla Kuhn

Samira likes school, especially when she gets to sit next to her best friend, Frida. But when they learn about the skeletal system in science class, Samira suddenly begins to imagine everyone in school as a walking skeleton. Soon she starts avoiding her fellow classmates, even Frida, but Samira still can't escape her own skeleton. With some clever help from her mother, though, Samira realizes that maybe having a body full of bones isn't necessarily a bad thing. Enhanced by delightfully impish illustrations, Camilla Kuhn's playful book depicts the hilarious results of an imagination gone awry.
